This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

PREFACE.

My First Anglo-Saxon Reader is, for practical reasons, restricted to the West-Saxon dialect. But the other Old-English dialects are of equal—if not even more—value to the historical student of English. Hence the necessity of a supplementary archaic and dialectal Reader. The primary object of the present book is, accordingly, to give the student—as far as the often scanty materials will allow—the means of making himself acquainted with the leading features of the non-West-Saxon dialects of Old English.

As the texts are intended mainly for linguistic students, they are taken exclusively from those which are preserved in contemporary (or practically contemporary, as in the case of the Erfurt glossary) MSS. As this book is of no use except for advanced students, I have thought it advisable to print the texts exactly as they appear in the MSS., and have therefore refrained from adding any theoretical accents. Expanded contractions are printed in italics. Letters not in the MSS. are enclosed in [ ]. Erasures are marked by (:). A prefixed star calls attention to an erroneous or anomalous form, being thus equivalent to 'sic.' In the glossaries corrections of the Latin forms are added in ( ).

Another object of this book is to serve as a cheap and handy abridgment of my *Oldest English Texts*[1], a work whose bulk and costliness puts it beyond the reach of the ordinary student. It is this consideration which has induced me to include the whole of the Epinal-Erfurt and Corpus glossaries, unsuited as they undoubtedly are for the purpose of an ordinary Reader. Students whose object is merely to get a general idea of the dialects, are therefore advised not to attempt to read these glossaries through, but to pick out those

[1] Early English Text Society Publications, no. 83, 1885 (Trübner & Co., London).

words which they easily recognize in the first twenty pages or so, and concentrate their attention on them. Note that the English words in the Erfurt glossary printed in italics are partial or complete Germanisms of the Old High German scribe.

All the texts are complete in themselves with the exception of the extracts from the Liber Vitae (4) and the Durham and Rushworth glosses (8). The Hymns in the Vespasian Psalter are given in full, no extracts from the Psalms themselves being given.

The following texts are taken from the Oldest English Texts: 1, 2, 3, 4, 5, 6, 7, together with the first thirty charters, whose numbers in the Oldest English Texts are added in parentheses. The extracts from the Durham and Rushworth Gospels (8, 9) are taken from the new edition in preparation by Prof. Skeat, proof sheets of which he very kindly placed at my disposal for the present work. The Kentish Glosses (10) are mainly from Prof. Zupitza's edition in Haupt's Zeitschrift. The charters from 31 to the end are from copies I made some years ago, in pursuance of a now abandoned intention of editing a collection of the post-Alfredian charters. The student must be warned that the dialectal element in these later charters is often strongly mixed with—if not almost entirely supplanted by—literary Saxonisms.

Not wishing indefinitely to increase the bulk of this work, or delay its publication, I have in this first edition given simply the texts without grammatical introduction, notes, or glossary. Now that Sievers's Anglo-Saxon Grammar has been made accessible to the English reader in Cook's translation, the first would, indeed, be almost superfluous. What form the notes and glossary will take in any future edition, I cannot say at present. This will depend mainly on the direction of my own studies, which again will partly depend on external circumstances over which I have but a limited control.

HENRY SWEET.

MORTHOE, *September* 1, 1887.

KENTISH GLOSSES.

I.

jacitur: is worpen.
pennatorum: gefiðeradra.
moliuntur fraudes: bereafiað.
sic rapiunt: swa reafiað.
praedicat: bodað.
clamitat: hi clepað.
cupiunt: gewilniað.
odibunt: hatiað.
en proferam: efne nu ic forð brenge.
quia vocavi: for ðam ic geceide.
ego ridebo: ic hlihe.
cum insonuerit: ðonne swęið.
ingruerit: on bricð.
exosam: onscunede.
detraxerunt: hio teldan.
perfruetur: he brecð.
timore sublato: atogenum ege.

II.

penes te: nih ðe.
gradientes: farende.
omnem semitam bonam: ealne godne siðfet.
per vias tenebrosas: ðurh *ðriostrie weogas.
qui letantur: ða geblissiað.
in rebus pessimis: on werstum ðingum.
infames: unhlisie.
qui mollit: sio hnescað.
pupertatis suae: hire meiðhades.
calles: siðfata.

III.

non deserant: ne forleton.
gutturi tuo: ðinre hraca.
ne innitaris: ne getrua ðu.
recede: gewit.
umbilo tuo: þinum nafelan.
inrigatio: leccinc.
saturitate: of gesundfulnesse.
torcularia tua: þine winwringan.
redundabunt: genihtsumiað.
ne abicias: ne awearp ðu.

nec defi[ci]as: ne ðu ne atiara.
cum cor[r]iperis: þonne ðu bist ðread.
complacet: gelicað.
affluit: swelhð.
non valent comparari: ne magon bion wiðmetene.
qui tenuerit: þe hefð.
stabilivit: gestaðelade.
erumperunt: up abrycan.
rore: of deauwe.
ne affluant: ne aflowan.
non impinget: ne etspernð.
ne paveas repentino terrore: ne *forta ðu of ferlican ógan.
ne capiaris: ðet ðu ne sio gripen.
prohibere: forbiodon.
si vales et ipse benefac: gif ðu meht 7 ðu self tela do.
ne dicas: ne sege ðu.
cras: to morgen.
ne moliaris: ne þen ðu.
ne contendas: ne flit ðu.
frustra: on idel.
ne aemuleris: ne ðu ne onhere.
ne immiteris: ne ðu ne geefenlęc.
omnis inlusor: ęl bismeriend.
sermocinatio ejus: his wordlunc.

IV.

tenellus: myra.
adquire: gestrion.
arripe: gegrip.
glorificaberis: ðu bist gewuldrad.
au[g]menta: eacan.
corona inclita: myrlic cynehelm.
ne delecteris: ne gelustfulla ðu.
desere: forlet.
dormiunt: h . . .
non rapitur: ne bið gegripen.
nisi supplantaverint: buton hi beswican.
comedunt: hi etað.
ausculta: hlest.
ne recedant: ne gewitan.
vita: líf.
quia ex ipso procedit: ðara for ðam forð gewit.
remove: fram astere.
palpebre tue: ðinum brewum.
stabilientur: sin gestaðelade.
novit: wát.
perverse: forhwerfede.
faciet: he deð.

V.

ut custodias: þet ðu . . .

conservent: ge . . .
nitidius: scinendre.
gladius biceps: twiicce.
descendunt: niðer . . .
penetrant: farað.
vagi: woriende.
in[inve]stigabiles: unasperiendlic.
ne recedas: ne gewit ðu.
ne des: ne sele ðu.
gemas: ðu giomras.
cur detestatus sum: for hwe onscunede ic.
non adquievit: ne geðafede.
audivi: ic . . .
docentium: . . . ra.
magistris: . . . m̄.
paene: fornion.
sinagoge: werede.
de cisterna tua: of ðinum seaðe.
diri[g]entur: sint gereahte.
divide: todel.
habeto: . . . ðu.
solus: ane.
vena tua: ðin edra.
letare: geblissa.
adulescentiae tuae: ðinre giogeðe.
cerva carissima et gratissimus hinnulus: eala ðu liofestæ hind 7 gecwemest hindcealf.
inebriant: ginddrencað.
delectare: gelustfulla.
quare seduceris: for hwæ eart ðu beswicen.
foveris: ðu bist gestrangad
considerat: he besceawað.
capiunt: gegripað.
const[r]ingitur: he bið ge wriðen.
multitudine: of . . .
decipietur: he bið beswicen

VI.

si spoponderis: gif ðu behete
defixisti: ðu afesnadest.
inlaqueatus es: ðu eart ge grinad.
captus: geheft.
incidisti: hrure.
discurre: irnn.
nec dormitent: ne hneppian
eruere: si ðu ut *alened.
dammula: hind.
aucupis: *hireres.
ad formicam: to emet.n.
